

PatternFly Community Meeting

June 29th, 2021

www.patternfly.org/v4

Agenda

Topics

- Accessibility Update
- Design Guidelines Update
- Core Update
- React Update
- What we're working on

Q&A

Design guidelines

New guidelines

- [Action list](#) (Components > Action list)
- [Jump links](#) (Components > Jump links)
- [Code editor](#) (Components > Code editor)
- [Code block](#) (Components > Code block)

What we're working on...

Community extensions

- What are community extensions?
 - Enable projects to share code and solutions built from PatternFly components.
 - Have a solution bias that targets a higher level use case.
 - Are developed and maintained by the community.
 - May live anywhere (PatternFly organization on GitHub or another repo) as long as the source is open and accessible to everyone.
 - Will include links to documentation and code.
- Community extensions will be exposed in a new page to be added to patternfly.org.
- Anyone can add their extension by sending a PR to update the community extensions page.

In-progress

- **Mid-summer breakaway sprint**
 - An opportunity for developers to step away from feature work and focus on projects related to improved documentation, infrastructure, and process.
- **No July release. Next PatternFly feature release planned for August 4.**

Visit the [PatternFly feature roadmap](#) to see our complete feature backlog and WIP.
