 - Alerts & [Alert Group](#) update
 - [Documentation updates](#)
- React update
 - Common keyboard handling for menus - Katie
- Org update
 - Table documentation - Nicole
 - Editable workspace update - Zack
- What we are working on - Matt

Q&A

Beta component promotion candidates

- [List of candidates](#)
- Scheduled to be promoted during the last week of August.
- Once a component is promoted out of 'beta', it's API will not be altered unless it's a breaking change release.

All repos: 'master' branch renamed to 'main'

What we're working on...

Design

- [Visual Refresh](#)
 - Define the next generation of PatternFly look & feel
- [Revise selected states for tiles and cards](#)
 - Update selected state styling to be less confused with focus states in the Chrome browser.
- [Back to top component](#)
 - Allow users to return to the top of a long scrolling page in a single click.

Visit the [PatternFly design workspace](#) to see our complete design backlog and WIP.

Core HTML/CSS

- [Masthead refactoring](#)
 - Introduce a refactored, more responsive and flexible masthead.
- [Secondary horizontal navigation](#)
 - Introduce a secondary horizontal navigation bar to replace existing tertiary nav.
- [Task Drawer](#)
 - Add support for reporting status of active processes in the notification drawer.
- [Scalable vertical navigation](#)
 - Add the potential for an additional levels of nesting in vertical navigation menus.
- [Stepper component](#)
 - Add a stepper component to reflect progress and navigate through sequential tasks.
- [Tree view enhancements](#)
 - Working on visual enhancements to the tree view component to support increased content density.

React

- [Real-time form field validation](#)
 - Introduce a demo showing how to display validation criteria for names, passwords, etc, as part of any text input.
- [Editable label group](#)
 - Allow the user to edit the contents of a label in place.
- [Refactor dropdown components to use a composable approach](#)
 - Re-build dropdowns and selects to use composable approach for better flexibility.
- Log viewer: [dark theme](#) and [full screen](#) enhancements.
 - Add the ability to view logs in dark as well as light theme and to make a log window occupy the entire screen for easier viewing.

Visit the [PatternFly feature roadmap](#) to see our complete feature backlog and WIP.
