

PatternFly Community Meeting

November 30th, 2021 www.patternfly.org/v4

Agenda

Topics

- PatternFly office hours coming soon! (Nicole)
- Beta component promotion candidates (Nicole)
- Design guidelines updates (Matt & Margot)
- Design kit updates (Marie)
- Core update (Michael)
- React update (Michael, Katie, Austin, Gabi, Titani, & Evan)
- Website update (Evan)
- What we are working on (Matt)

Q&A

Beta Promotion Candidates

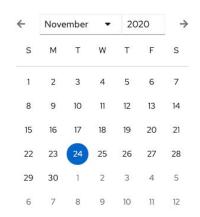

Candidates

- Jump links
- Back to top
- Calendar month

PatternFly Design Kit

PatternFly Design Kit | Notable updates

Symbol additions :

- <u>Compact toggle groups</u>
- <u>Compact labels</u>
- <u>Secondary actions dropdown</u>
- <u>Updated padding for tooltips and popovers</u>

Template additions:

<u>Compact tree view with guides</u>

Other additions

- Design Kit audit and fixed many issues
- Figma PatternFly library in progress

✓ spec

Specification of the desired behavior of the deployment.

minReadySeconds

Minimum number of seconds for which a newly created pod should be ready without any of its container crashing, for it to be considered available. Default to 0 (pod will be considered available as soon as it is ready).

paused

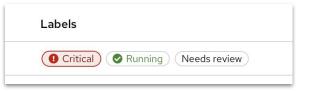

Indicates that the deployment is paused

progressDeadlineSeconds

The maximum time in seconds for a deployment to make progress before it is considered to be failed. The deployment controller will continue to process failed deployments and a condition with a ProgressDeadlineExceeded reason will be surfaced in the deployment status. Note that progress will not be estimated during the time a deployment is paused. Defaults to 600s.

replicas

Number of desired pods. This is a pointer to distinguish between explicit zero and not specified. Defaults to 1.

What we're working on...

Design

The design team is currently working on the following new features and enhancements...

- <u>Visual Refresh</u>
 - Define the next generation of PatternFly look & feel
- Filter patterns
 - Revisit and enhance patterns for supporting advanced filter and search use cases.
- Label enhancements
 - Add editable label groups.
- Query builder
 - Provide a graphical approach for building complex Boolean queries.
- <u>Row striping for tables</u>
 - Improve readability across rows by adding a background fill to every other row.

Visit the PatternFly design workspace to see our complete design backlog and WIP.

Development (Core and React)

- Card styling additions
 - Introduce <u>"non-actionable" cards</u> and <u>raised cards</u> to supplement existing card styles.
- <u>Refactor dropdown components to use a composable approach</u>
 - Re-build dropdowns and selects to use composable approach for better flexibility.
- Adding new Navigation options
 - Enhancing our vertical navigation to include <u>flyout</u>, <u>drilldown</u>, and <u>tertiary expansion</u> patterns.
- File upload enhancements
 - Support multiple file uploads.
- Red Hat font upgrade
 - Upgrades Red Hat Display and Text fonts to latest version and adds support for new Mono and Variable fonts.
- <u>Truncate component</u>
 - Will support middle truncation for text strings.

Q & A
