Test

Recovery tasks for server **TEST**.

1. Step 1

2. Step 2

    ```
    mkdir /foo
    ```

3. Edit **/etc/fstab** and add the new logical volume.

    ```
    /dev/vg_bar/lv_foo  /foo  ext3  acl,user_xattr,noatime  1 2
    ```

4. Reboot the system.

    ```
    reboot
    ```

    The system is ready for turnover.
