

# 70Pres

## DESIGN AND LAYOUT

Company «TOPres» - for those who are used to work with professionals. We know the way to show the best features of your product and to draw consumers' attention to them. «TOPres» designers will create a unique corporate style of the company or manufacturer - everything from logo, trademark and image polygraphy to output production.

The main element of the polygraphy is the design. "Its main objective is not only to draw the attention, but also to help to memorize the necessary information." First we 'see' and only afterwards we 'hear', the refore text should accompany an image, not vice versa. Our designers will place texts, images and graphics to emphasize all advantages of your products or services.

UPSCALE STANDS

UPSCALE STANDS - COMPANY «GRADE»

## The advantages of work with us

The basis of the «GRADE» company's work is individual attention to every client, sensitive response to client's needs and objectives. Long-lasting cooperation of big companies and organizations with our company is one more evidence that we deserve to be believed. Our central office is situated in Riga, but we work with clients not only all over Latvia and the Baltic states, but also in former Soviet republics and non-CIS countries. Thanks to the team of highly knowledgeable specialists and availability of modern professional equipment we provide consistently qualitative service – it enables us to guarantee to our clients tight deadlines, high quality and maximally reasonable prices.

## Products

An upscale stand is an absolutely new creative designer's decision which is death on copying. An upscale stand is produced upon the special project and distinguishes by nonstandard parts, systems and construction units.

So, upscale stands represent unique construction that can be produced only in a single copy.

We assign the production of stands to the team of our professionals who seriously take their business.

## Collaboration

Our company «GRADE» is interested in long-term partnership relations with clients. At the first stage of collaboration we offer some conceptions corresponding to the goals of the participation in the event. Would you like to present a new product? We will make it the central element of the stand. Are you planning to attract a certain audience? With us this goal is realizable! Every client first of all becomes the real friend of our agency. We do our best on purpose to make the collaboration with our company as much efficient and favorable as possible. Regular customers of our company will have a possibility to use the most profitable price programs and a range of optional services. We are ready to render the most favorable cooperation conditions for our clients.

Save your time and money– call our company «GRADE».

# OFFSET PRINTING

## 70Pres

### OFFSET PRINTING

Company «TOPres» offers following services;  
Full-color offset printing of various big and small formats. The up-to-date printing equipment and using of the newest polygraphy technologies, relevant work experience and the competent organization of each stage of polygraphic manufacture give us the possibility to carry out orders of any complexity both qualitatively and operatively. Not only can primary colors (CMYK) be used in offset printing, but also additional palettes (for example, Pantone, the metallized colours) which can be used either instead of standard paints or in addition to them.

#### Our possibilities:

- Individual qualified approach to every customer;
- Our specialists who are keen on challenges;
  - We will complete your order in 5 days;
- We have contemporary equipment and automatic quality control;
  - You can place your order in your office;
  - We will deliver your order.

 <http://topres.eu>

High quality production, operative polygraphy, an optimum parity of the price and quality, the attentive relation to clients - all these advantages could become a reason to use services of company «TOPres».
